handle solvency worldwide

SkyMinder

Microsoft Dynamics 365
Business Central

Credit information on companies from 230 countries

SkyMinder connects your Microsoft Dynamics 365BC system with the SkyMinder, a CRIF platform allowing the global market to access commercial risk data and take better business decisions on worldwide companies. All countries around the world are available on SkyMinder: This means that all entities considered as companies in more than 230 countries and territories can be requested using your SkyMinder. In addition, it is also possible to be updated if a change affects your business partner, both customer or supplier.

Integrated in D365BC

SkyMinder information where you need it

- Get automatically updated SkyMinder credit information inside D365BC.
- Track the history of your business partners in D365BC to better take future decisions.
- Stop double tracking, data inconsistency and mistakes in your database. Thanks to SkyMinder's powerful phonetic search, you are able to store the right business partner address.
- Avoid expensive mistakes, double reports and double investigations.
- All information is available at one central location, directly at hand in the relevant process (for example quote).
- If you already use SkyMinder you can import all acquired data with the "Initial Load" and connect it with your Customers, Vendors and Contacts. Data availability will be in line with the web access.
- Uniform right management inside D365BC for SkyMinder consultation and access, as well as SkyMinder access data.
- Enforcing a single credit directive will be facilitated, so you gain more security and a considerable effort reduction.
- SkyMinder can be operated from the D365BC Customer, Vendor or Contact. Display and retrieval of data is consistently the same. Simple but powerful structure ensures optimal integration, fast learning and high quality customer experience
- SkyMinder is fully integrated in Microsoft Dynamics 365BC, with minimal interference with the D365BC standard. It is a standard extension of your Microsoft Dynamics 365BC system with its own number range and permanent maintenance.

Always up to date

- In the background, the update/mailbox/archive function updates your D365BC data by regular online comparison with the SkyMinder database.
- You can automatically receive updates and answers to your investigation requests as soon as they are available and you can fill your D365BC system from the SkyMinder archive (for example with the "Initial Load").
- Credit Reports not yet stored in D365BC are fetched and linked to the relevant Contact, Customer and Vendor. This manual or automatic collection and assignment can later be reconstructed at any time.

Requirements

- ✓ Dynamics NAV 2009 R2 or higher
- ✓ Access to the SkyMinder Service by CRIF

Microsoft Dynamics 365
Business Central

SkyMinder in Dynamics 365BC

SkyMinder is available in nearly all versions of Microsoft Dynamics D365BC starting with the Classic Client as of NAV 2009 R2 up to the newest Business Central version.

SkyMinder – Key information at a glance

With **SkyMinder** you can retrieve international business reports easily and immediately online. Any information, regardless of which country, is based on a strong commitment on quality and data updating aligned with local legislations.

SkyMinder offers high-quality information thanks to the daily CRIF updated data and the most qualified local information service providers. In this way you can also obtain the best quality of information from regions where the procurement of information is a major challenge, e.g. from Asia, the Middle East, Africa and Latin America.

Furthermore, **SkyMinder** consists of a team of international specialists, who give individual support with each search for information, starting with routine queries to complex searches.

Close cooperation between **CRIF** and **mse** enables optimal availability and integration of existing and future service enhancements in Microsoft Dynamics 365BC. In addition, special features of the user company can be taken into account individually.

About CRIF

Specializing in credit information systems, business information and credit management solutions, CRIF offers banks, financial institutions, utility companies and businesses qualified support in every phase of the customer relationship: from the planning of development strategies to acquisition, through to portfolio management and credit collection. CRIF's growth is driven by a global approach and vision.

SkyMinder is a CRIF application which gives you access to in-depth credit, financial and business information on over 230 million of companies all over the world.
